

## Holistic Water for Horticulture Workshop

6<sup>th</sup> March 2020

### Breakout Session

1. What does resilience mean to you and your business?
  - a. What is your interpretation of resilience? How far reaching is it (from environment to business, to sector and supply chain)
  - b. Where and how does resilience and water management fit within your business strategy?
2. How are your views affected by what's going on in the catchment? Are you experiencing any constraints due to scarcity, quality – underlying drivers?
  - a. Awareness of needs of others, pressures, looking to build collective action.
  - b. What are you doing on farm to measure, monitor, manage and reduce water usage?
  - c. What tools are you using to understand water requirements and usage?
3. Are you getting enough advice?
  - a. What kind of advice would you like to receive more of and how? Does this include info on resilience?
  - b. Which groups are talking to you on what topics? Frequency, channels of communication, are you aware of existing water projects?
  - c. Are you involved in any cluster groups currently?
4. How would you like to be involved in the project?
  - a. This project is about collective action, innovative thinking/doing and communicating results and findings so that others can benefit.
  - b. There are many ways to be involved (**see form to fill out:** for example, as part of a grower/stakeholder advisory group, as a demo site for HWH measures, to collaborate in developing a resilience metric, contribute financially/in kind)
